

I am Kazadi Musau Betty, I am a clergy member of the North Katanga Episcopal Area, North Katanga Annual Conference in particular. I am the Director of the Communications Department.

The Christmas Covenant, in English Christmas Covenant, is our gift of hope. By this covenant, we are urged to embody the body of Christ, to love one another as God loves us in the current context of the United Methodist Church. The vision of the covenant is to be in connexion at the global level, engage in mission together and mutually respect contexts based on mission, ministry, and humbly celebrate diversity of God's creation. And finally we need to value relationships to promote evangelism, discipleship and social justice.

To conclude, let us promote the African concept of Ubuntu, which embodies a humane life based on interdependence and community life. I thank you
